Payatas Charity Event 2016

(December 15, 2016)

The beauty about giving is like putting a smile in someone's soul. Christmas season is indeed a special day of sharing and loving. It reminds us that we, people, are social being that have capacities to bring joy and have responsibilities at some point to lighten and brighten other's lives.

Over a month, ALSA-BUHAY Payatas learners in all levels work together to actualize their charity event for the needy and underprivileged. Through various livelihood activities, each group formulated and executed their plans to raise funds that they will use to buy stuff and other Christmas gifts for their chosen beneficiaries. These activities include producing and selling rugs, dishwashing liquids, banana muffins, candies, rice cakes, packed meals, etc.

We are pleased to share to all of you that 15 families around Payatas and nearby areas became the beneficiaries of this first-ever ALSA BUHAY Payatas Charity Event. They were given Christmas grocery package, used clothes, and school supplies that personally shopped, prepared, and wrapped by our learners.

To make it more memorable and experiential, last December 15, 2016, we let each group to visit their beneficiaries in their home or places, surprised them with our presence, serenaded them with a Christmas song, oriented them about the activity and finally, let them feel the essence of this holiday through our gifts and genuine concerns.

The objective of this activity is to make learners realized how blessed they are with all the opportunities that they continuously gaining and let them experience how to give-back especially to the most in need. Though they belong to the poor families and most of them are indigent, this only testified that we can bring joy to others regardless of our social status and financial capabilities.

We would like to express also how grateful we are for the people who supported and patronized our products and other livelihood activities. Together, we can make things possible and meaningful. May we all have a fruitful and blessed Christmas and New Year!

Being the lost, the least and the last in the long run can somehow cause person to despair. But as God used as to become the light in their lives, they were able to hope for a better future. Not just sticking on the lifestyle that they already have but for the betterment of themselves.

As a children of God, we need to recognize that each among our learners have different intellectual abilities and for them to discover it we must help and encourage them in bringing the best of themselves.

Let us all pray that one day, their dreams will little by little achieved through their full efforts, through the continuous support of those generous people and partner organizations whose aiming in nurturing better life by way of education, and also with the guidance and good will of our God.

Puso Team Building 2016 (December 17-19, 2016)

Another fruitful and meaningful year is about to end especially to our institution. As we look back, many things brought different results and changes. Yet we still strive to produce results that rooted from one humble mission.

As we conclude this year and welcome the New Year, a truly timely and relevant activity took place for the staff of Puso sa Puso Edukasyon, Inc. A 3-day team building activity was set that started last December 17 up to December 19 at Bougainvillea Resort in Silang, Cavite. It was attended as well by our president, Fr. Artur Chrzanowski, SDS.

The team building activity focuses on wellness of staff as something that needs not to be taken for granted. In order to bring out excellent outcomes, staff needs to be on their excellent conditions as well. On the first day, Fr. Artur facilitated a recollection and reflection that targeted the spiritual and psychological aspects of the staff. Thereafter, a Holy Mass was observed.

On the next day, the health and physical aspects of the staff were given concerns. With the help of two facilitators namely Ms. Chiara Siy who facilitated a health assessment and health discussion and Mr. Paul Elson Umali who guided us in better understanding of a team through short lecture and various dynamics.

To conclude the activity, the staff together with Ms. Jopy Villanueva (Zumba instructor) moved their bodies and danced their way to good health.

On the night before departing the serene resort, the staff gathered again for a Holy Mass followed by a Christmas party in which everyone actually enjoyed.
