**“Peer Educator’s Trainings on Adolescence Reproductive Health”**  
(April 3 and 4, 2018)

The Reproductive Health is the state of the complete physical, mental and social well-being and not merely the absence of disease or infirmity, in all matters relating to the reproductive system and to its functions and processes. Reproductive health therefore implies that people are able to have a satisfying and safe sex life and that they have the capability to reproduce and the freedom to decide if, when and how often to do so.

Learners of ALSA BUHAY Parola Center and other private organization participated in two days seminar organized by International Container Terminal Services, Inc. Various video presentation were shown to the participants about Sexually Transmitted Infections (STIs), HIV/AIDS and Teenage pregnancy, the current situation of Adolescence Reproductive Health and how we can help in the challenges and difficulties of this poor communities as a citizen.

To make the seminar more interesting and informative, competent speakers help the participants to understand more of the Adolescence Reproductive Health. Mr. Arjay Tallod, Manila Social Hygiene of United Nation talks about the details on Change and Transitions Reproduction and responsibility in Sexual relationships, Changing Bodies, like Changes in Puberty for boys and girls, Myths and Facts, How are babies made? Bata,bata Pa'no ka ginawa, HIV /AIDS and their symptoms ,How is HIV transmitted, HIV/AIDS treatment , Five ways of HIV Prevention and Early Teenage pregnancy.

The two days activity were indeed very interesting, informative, and interactive. After the activity, participants were given time to further discuss what they had learned and ask questions regarding about Adolescence Reproductive Health. Before the seminar ends, all participants were given certificates and HIV/AIDS booklet. We think that, after this seminar they can share what they have learned about the topic and to become one of the best peer educator in the communities.

Truly a “Beautiful, Interesting, Educational” day!

## **Outreach Activity: Free Dental Service 2018** (April 23-27, 2018)

Annually, Dr. Anthony Foli, a licensed dentist from Australia visits the Philippines to do volunteerism and give free dental services to the ALSA BUHAY learners.

Last April 23-27, Doc Tony was able to give free dental services to the thirty three (33) ALSA BUHAY learners in Payatas. The said activity happened in Salvatorian Brother's House at 11<sup>th</sup> St., New Manila with the accompany of the social worker of Payatas, Ms. Joceline Basconcillo, RSW and the program coordinator, Sr. Frances R. Mangabat, SDS.

Doc Tony encountered learners with the rampant cases of tooth decay and those who hadn't seen a dentist ever since because of poverty and lack of education on oral health. He was able to do intervention such as cleaning, filling, and extraction of their decayed tooth. He also gave advice on how to properly take care of our teeth.

Free dental care is vital in the overall well-being of a person and everyone deserves to have a healthy smile. ALSA BUHAY learners were very grateful to the organization, especially to the person who really became God's instrument to bring back their beautiful smile. Simple token were given as a sign of gratitude to him after the 5 days of dental check-up.

## **Thanksgiving Mass and Recollection** (April 24, 2018)

In giving gratitude with all the blessings we receive especially to the learners who had passed the Accreditation and Equivalency test last November 19, 2017, we gathered ourselves for a thanksgiving mass last April 24, 2018 at 9:00 in the morning at Dela Solidad Parish, Binondo Manila. Fr. Artur Chrzanowski, SDS was the mass celebrant.

In the homily Fr. Artur, emphasizes the trials faced by the learners before passing the A&E test. He remembered how long the learners wait for day of examination and when it comes the test was so difficult and not parallel to the given lessons from the ALS Modules. In this experience everyone must celebrate and give thanks to God for His divine favor and blessings has given to us, especially to the learners who had passed in the said examination. Fr Artur also encourages and challenges everyone that we are the salt on this earth that able to bring change and difference for the common good of our community. The passers should not stay on what they achieve today but they have to dream big and never give up achieving this dream for this is the plan of or God to us.

After the mass, ALSA BUHAY staff again gathered our passers for a recollection. The activity held at Puso sa Puso Livelihood Parola Center, Delpan St. Tondo Manila. It was started at 1:30 pm and facilitated by the Instructional Managers. The sharing focused on four questions: What was the most significant experienced you had in ALSA BUHAY Center, Who are the people helping you in achieving your success in ALSA BUHAY, In what way do you think you can give your gratitude to Puso sa Puso, and lastly, what do you think you will be after five years. Learners and staff shared their insights they have in ALSA BUHAY.

The event became a very meaningful experience not only for the staff but to the passers as well. They were able to share their feelings, gratitude and even their plans for the coming years. It also became the avenue to reflect on their own life and see where are they now.

The recollection ends with the concluding statement of Sr. Mila Singap, FLP and a circle of prayers headed by one of the passer.

Philippines is one of the countries that belongs in the "Pacific Ring of Fire", which means many earthquakes and volcanic eruptions occur. Filipinos should have knowledge and awareness about earthquake safety and fire prevention awareness. With the help of our invited guest speakers, they selflessly discussed and shared their knowledge about the said topic.

SFO3 Edwin Pasiliao discussed the earthquake safety; the things that they must do during and after earthquake and the 3 most important words that we should remember: **D**UCK. **C**OVER. **H**OLD while, FO1 Jogie Blanche discussed the fire safety awareness; things to do during the fire, parts of the fire extinguisher and how to use it. Just remember: **T** (twist the thread), **P** (pull the pin), **A** (aim the nozzle from the base), **S** (squeeze the lever), and **S** (sweep side to side)

Learners and staff learned a lot in the said seminar. We don't know when fire and earthquake will occur, but the ALSA BUHAY learners and staff are already prepare and aware for any eventuality.
